CRUISE ROCKED BY EXPLOSIVE CLAIMS THAT SCIENTOLOGY FOUNDER IS DAUGHTER'S REAL DAD

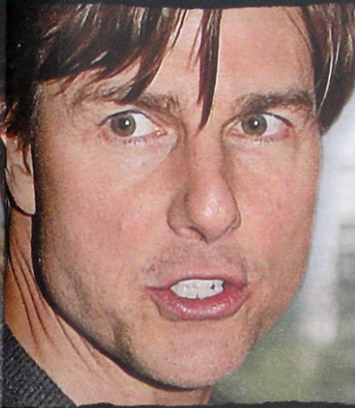

**A**S THE Church of Scientology continues to shudder amid intense scrutiny, former officials have stepped forward with the most shocking allegation yet: Tom Cruise is not Suri's biological father!

This bombshell assertion is being made by multiple insiders, who have sensationally claimed church founder L. Ron Hubbard was the secret sperm donor.

That would explain, the sources allege, why A-list superstar Tom hasn't seen the 9-year-old girl in nearly two years — she's not really his, but the result of a bizarre church plot to reincarnate the religion's

mastermind with frozen DNA! "It's not inconceivable at all that [Scientology] would plan it," Skip Press, a staff member for two decades at Scientology's Celebrity Centre in Hollywood, told The National ENQUIRER in an exclusive interview. It's been 607 days — and

counting — since Tom was last seen with Suri, an astonishing separation that has placed Tom's devotion to being a dad under the microscope. But behind the scenes, The ENQUIRER has learned, the 52-year-old star is "livid" about the dark paternity secret being whispered in the

highest levels of the actor's controversial religion. "It sickens him to his stomach that people would doubt he is Suri's father," an insider close to the "Mission: Impossible" star revealed. "He tries not to react or to dignify the twisted rumors, but of course he is aware

of them, and of course this hurts him deeply!" **THE THEORY** that Hubbard — a wife-beating schizophrenic who died in 1986 — fathered third-grader Suri was first touted by bestselling author Andrew Morton in his 2008 tell-all, "Tom Cruise: An Unau-

thorized Biography." According to the book, a number of high-level Scientologists believed Katie — Tom's future wife — was impregnated with Hubbard's frozen sperm. "Some sect members sincerely believed that Katie Holmes was carrying the baby who would be the vessel for ▶

## WHERE'S 'DADDY?'

What no-show Tom's been up to — without Suri

**THE THRILLER WITH STILLER** Tom helped Ben Stiller put his handprints in the sidewalk at Hollywood's Chinese Theatre in December 2013. Suri was on the sidewalk in New York — 2,780 miles away — being walked to school by a nanny while Mom was filming in South Africa!

**PARTY WITH A FAMOUS PAL!** Tom found time to party and drink whiskey with David Beckham and friends in London during March of this year. Also in March: Suri was at the Kids' Choice Awards in Los Angeles with Katie — 5,437 miles away.

**MORE FUN AND GAMES** Tom found plenty of time for these female fans at a women's NCAA tournament basketball game in Tampa on April 5, 2015 — on Easter Sunday! Meanwhile, Suri was 2,500 miles away at Disneyland with her mother.

L. Ron Hubbard's spirit," the author wrote.

As the book's over-the-top allegations made international headlines, Tom's camp furiously tried to discredit the claims. Tom's lawyer Bert Fields blasted it as "a pack of lies," while Scientology's general counsel said: "We are seriously considering legal action."

But some former Scientologists still won't dismiss the claims.

"It wouldn't surprise me at all," former Scientologist Margery Wakefield, who worked for the church's intelligence service until she quit in 1980, told *THE ENQUIRER* in an exclusive interview.

"I don't put it past [Scientology leader David] Miscavige or any Scientology executives to have this done."

What's more, actress and ex-Scientologist Carmen Lywelyn also believes Hubbard could be Suri's real dad!

"I could imagine that's possible," Carmen told *THE ENQUIRER*.

"When I look at Katie, part of me wants to believe she would never be into that stuff, but it doesn't mean Scientology wouldn't!"

Added Skip: "It was always a given that Hubbard was going to be reincarnated."

"Who better than Tom Cruise as his daddy?"

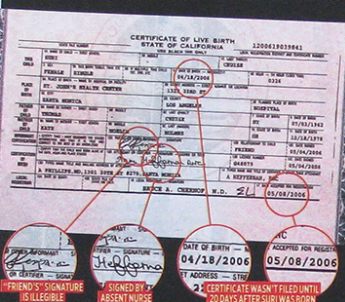

Skip, who defected from the church in 1996, claimed he was once told three top Scientologists "were shooting blanks" and "had too low sperm count to father a child."

"One of the three was Tom Cruise," Skip alleged. "He couldn't father kids!"

For his part, Tom has staunchly declared he can, indeed, "produce children."

## CRUCIAL EVIDENCE: DOES IT BACK UP THE WHISTLEBLOWERS' CLAIMS?

August 1, 2012

### 1. MYSTERIES OF THE BIRTH CERTIFICATE

ADDING fuel to the speculation surrounding Suri's paternity are the circumstances of her birth. Officially, her birth certificate states she was born April 18, 2006—but the document wasn't filed for 20 days, even though hospital policy requires that all birth certificates be filed within 10 days.

to be at the center of Tom's decision to travel the world and spend precious little time with Suri.

The Hollywood rumor mill has been in overdrive after the "Top Gun" hunk, who has a net worth of \$450 million, was last publicly spotted with Suri during a Sept. 15, 2013 miniature golf outing in New York's Adirondack Mountains.

He has seemingly chosen to spend more time working and attending to the Church of Scientology than being with Suri.

One reason: According to Katie's "public" defection

### 2. FACE EXPERT: 'I CAN'T RULE OUT HUBBARD'

SURI bears little resemblance to Tom, and an expert said she could well be Hubbard's child!

Forensic facial reconstruction expert Dr. Caroline Wilkinson compared Suri's face with Tom and Hubbard.

"Your genetic inheritance is like a lottery," she said. "You may end up looking like your mom, your dad or

someone else entirely."

Dr. Wilkinson couldn't definitively identify Suri as Hubbard's child, but added: "There's not much similarity to Tom. That's not his nose, and she has different ears. She looks like her mom."

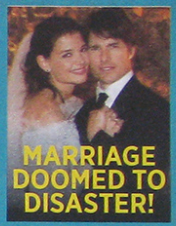

So in terms of forensic facial analysis, the identity of Suri's dad is still a mystery.

But when pitbull lawyers interrogated Tom about claims Katie divorced him "in part to protect Suri from Scientology," he lashed back.

"Listen, I find that question offensive," Tom exploded, according to a 36-page deposition transcript uncovered by *THE ENQUIRER*.

"There is no need to protect my daughter from my religion." The lawyers pushed further, asking Tom if Katie had told him "one of the reasons she left" was "to protect Suri from Scientology?"

At that point, Tom finally admitted: "Did she say that? That
